A HOOK EARNS A GLANCE.

The rehook earns the read.

01

Narrow the reader

Tell the right person it's for them: “This matters most when the founder still approves every proposal.”

02

Complicate the diagnosis

Add a twist that improves the explanation: “The team follows the process exactly. The process is missing the decision.”

EXAMPLE: HOOK + REHOOK

I almost quit my business.

WHAT SHOWS BEFORE “SEE MORE”

The rehook decides whether the rest gets read.

HOOK
Earns a glance

REHOOK
Earns the read

…see more

BODY
Delivers the value

PAYOFF
Keeps the promise

CTA
The next step

03

Preview the payoff

Set an honest expectation: “Here are three places to check before you change your price.”

If your rehook could sit under twenty different hooks, it isn't doing its job.
